

Corporate Engagement Opportunities

Since 2007, West Place Animal Sanctuary has provided a permanent home and lifelong care to farm animals rescued from abuse, neglect, and cruelty cases. Our non-profit organization is also a licensed wildlife rehabilitation center, and serves as the lost dog shelter for the towns of Tiverton and Little Compton. This combination of services makes West Place the only organization of its kind in our area. Together with corporate partners across industries, we are cultivating a more compassionate community here on the “farm coast” of southern New England.

There are many opportunities for businesses large and small to engage with West Place and support our life-saving work while providing meaningful team-building experiences to your employees. We invite you to join us and cultivate compassion, empathy, and social responsibility within your business.

- **Corporate Retreats** – Gather your team for a memorable day at West Place! We offer a serene, beautiful location for professional development and group volunteer projects in conjunction with your fundraising efforts.
- **Company Events** – Host a fundraiser or a supply drive to support West Place’s unique mission within the animal welfare field.
- **Corporate Donation** – Support daily operations, capital improvements, or establish a student scholarship with a tax-deductible gift. In-kind donations also provide much-needed resources.
- **Matching Gifts** – Celebrate the charitable endeavors of your employees and increase the impact your team has on the lives of our farm animal rescues.
- **Volunteer Grants** – Also called “Dollars for Doers,” volunteer grant programs reward employees’ community involvement by making corporate donations based on their time spent volunteering.

We encourage you to be creative and select an opportunity that aligns with your business. West Place is flexible and willing to collaborate on additional ideas. To get started or for more information, please contact us. We look forward to partnering with you to support animals who deserve a second chance.
